≡ NÁRODNÍ GALERIE V PRAZE

The Publishing Department is a special-purpose facility administering National Gallery Prague's publishing activity in close cooperation with art historians, curators, lecturers, collections, and the Gallery's library. The department's expert output is determined by its specialist focus. Apart from traditional printed matter – exhibition catalogues, collection inventories, guides, professional journals, conference proceedings, artist monographs – we also publish specialist books about art and related fields (art theory and philosophy, museology, art history archives, etc.), books introducing the Gallery's collections, and children's books. Increased output by National Gallery staff (exhibitions, research, education, etc.) has also effected a substantial increase in the Department's book production over the past few years. Books are published in foreign-language mutations, making them suitable items for interlibrary publication exchange, and presenting the Gallery as a developed institution.
